Birth-day of week

26th September 2017

Problem Statement

Write a program that asks the user for their birth date and replies with the day of week on which they were born.
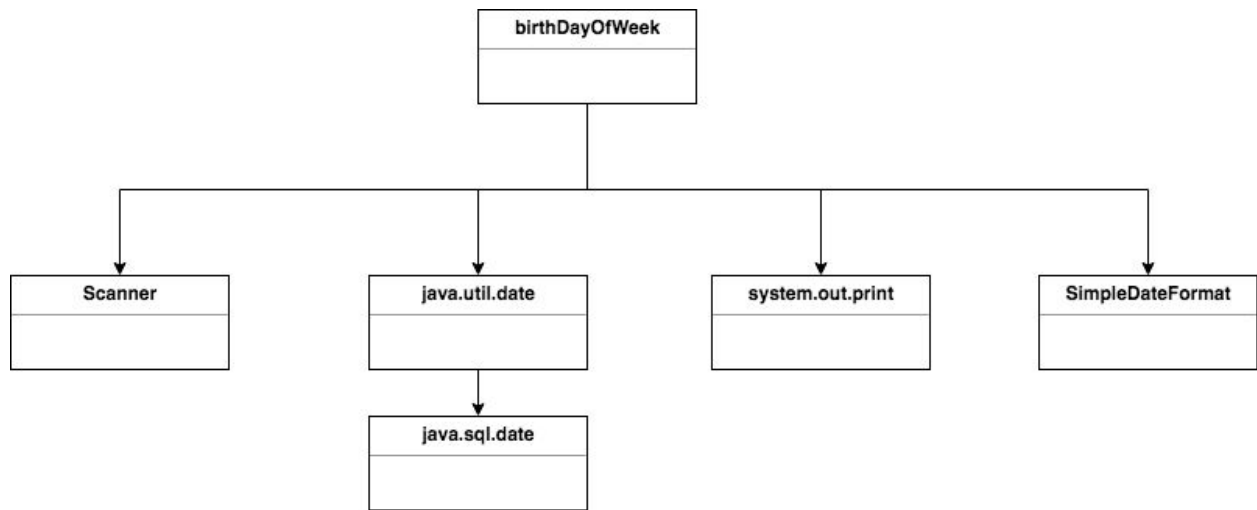

Plan - By task

1. Collect user's birthday
2. Convert user input into date value
3. Lookup day of week and output to user

Class Descriptions

Class:	Purpose:
BirthDayOfWeek	Main class of program
Scanner	Collection of user input.
java.sql.Date	Conversion of user input to data data type
System.out.print	Output the result to terminal

Program Diagram

Assumptions

1. Date will be formatted by user to match MM-DD-YYYY input specification.
